Chapter The Cost Of Capital

In economics and accounting, the cost of capital is the cost of a company's funds (both debt and equity), or, from an investor's point of view "the required rate of return on a portfolio company's existing securities". It is used to evaluate new projects of a company. It is the minimum return that investors expect for providing capital to the company, thus setting a benchmark that a new ...

Ch 10 - Analyzing Facilities Capital Cost of Money

Capital budgeting is vital in marketing decisions. Decisions on investment, which take time to mature, have to be based on the returns which that investment will make. Unless the project is for social reasons only, if the investment is unprofitable in the long run, it is unwise to invest in it now ...

I feel the need to disclaim that certain parts of this chapter are not meant as "bashing". It's not that
I have a grudge, the story just writes itself and once you start dropping anvils on a character it's
hard to stop.
