Cisco Router Web Setup Tool 2.0. Cisco Router Web Setup Tool is a free software configuration utility, supporting the Cisco 827 ADSL router.

### **Cisco Router Web Setup Tool 2.0 - Cisco**

Having user accounts on a router makes life and logging much easier. When creating users on a Cisco router we can assign different privilege levels to different users to restrict access to certain commands. You may want a junior admin to see a few things to help you troubleshoot but you don't want him to be able to change anything.
