A long and fulfilling road. Bushcraft isn't about collecting kit. Learning bushcraft is about attaining knowledge and actively gaining skills. If you exploit the full potential of the three items above in the pursuit of learning bushcraft skills, you'll be busy for a long time to come.

Getting Started with Bushcraft: Debunking the Kit Myth

Casey and I wrote Getting Started with Processing as a short and inexpensive guide to writing code for beginners and non-programmers. The book is heavy on examples and designed to get folks started quickly. It's propaganda material to get people hooked on coding: before long they're pursuing careers as artists or computer scientists, or worse yet, creating new programming languages to get ...

After the Interview: Doug Casey has some free articles and information at CaseyResearch.com. Casey predicts his site will grow at least three fold in the coming years because people will be scared and will not be able to find reliable information in the mainstream financial press. Casey says people are going to be searching for different and better information.

According to Matt Hamilton's answer, I thought on creating an Extension method for it. Since ValueType is not accepted as a generic type parameter constraint, I didn't find a better way to restrict T to Enum but the following.. Any ideas would be really appreciated. PS. please ignore my VB implicitness, I love using VB in this way, that's the strength of VB and that's why I love VB.
