Global governance or world governance is a movement towards political cooperation among transnational actors, aimed at negotiating responses to problems that affect more than one state or region. Institutions of global governance—the United Nations, the International Criminal Court, the World Bank, etc.—tend to have limited or demarcated power to enforce compliance.

Definitions and usage. The term digital divide describes a gap in terms of access to and usage of information and communication technology. It was traditionally considered to be a question of having or not having access, but with a global mobile phone penetration of over 95%, it is becoming a relative inequality between those who have more and less bandwidth and more or fewer skills.
