Nuclear winter is the severe and prolonged global climatic cooling effect hypothesized to occur after widespread firestorms following a nuclear war. The hypothesis is based on the fact that such fires can inject soot into the stratosphere, where it can block some direct sunlight from reaching the surface of the Earth. It is speculated that the resulting cooling would lead to widespread crop ...

The Strata-sphere has found that surface temperature measurements fail to show twentieth century global warming. The raw CRU data released in Climategate shows that surface temperature readings measure the first half of the last century (1900-1960) as warm or warmer than it is today.

Climategate | Watts Up With That?

Plan, direct, or coordinate the operations of public or private sector organizations. Duties and responsibilities include formulating policies, managing daily operations, and planning the use of materials and human resources, but are too diverse and general in nature to be classified in any one functional area of management or administration, such as personnel, purchasing, or administrative ...
