Answers to Self-Review Exercises. Error: Semicolon after the right parenthesis of the condition (c < 7) in the if. Correction: Remove the semicolon after the right parenthesis. [Note: As a result, the output statement will execute regardless of whether the condition in the if is true.] Error: The relational operator => is incorrect. Correction: Change => to >=.

Answers to Self-Review Exercises | Introduction to Java ...

To maximize the benefits of these solutions, students should first attempt to complete the even-numbered exercises and then compare their solutions with the solutions provided in the book. Since the book provides a large number of programming exercises, it is sufficient if you can complete all even-numbered programming exercises.

Introduction to Java Programming, Tenth Edition

Exercise 7.8: You will only need two classes, a short panel class to set up the interface and a Board class to draw the board and do all the work of the game. Nevertheless, you will probably want to look at the source code for the checkers program, Checkers.java, for ideas about the general outline of the program.
