Is It Ok To Drive

The anti-lock brake system (ABS) is a safety feature put in by the manufacturer. It's designed to prevent your brakes from locking up after a heavy press on the pedal. The ultimate purpose of this system is not to improve your stopping power but instead to keep your tires in contact with the road to prevent any dangerous skidding.

Is It Safe To Drive My Car With An ABS Light? Here's What ...

Driving without traction control can make your vehicle susceptible to spinning out and you could possibly slide around on the road. It is best to keep your TCS in working condition and enabled in case hazardous weather pops up. This allows you to maintain control of your vehicle at all times.

Is it Safe to Drive With the Traction Control (TCS) Light ...

Take it off, and then re-install it. Drive the car for a while and see if the light goes out (note that it may take a couple of restarts of the engine to make the light go out). If your car's Check Engine Light is on, it means that there's a problem somewhere in your emissions system.

Is It Safe to Drive with the Check Engine Light On ...

And the calculator won't help you if you are arrested for drink driving. What it will do is enable you to calculate roughly when it will be safe for you to drive the morning after drinking alcohol. And it can help you calculate when to stop drinking alcohol if you have to drive the following morning. How the 'Morning After Calculator' works

The Morning After Calculator - When will you be safe to drive?

Ask The Driving School Instructor: Driving With One Hand. Most people tend to put their hand at the top of the steering wheel. If you were to turn your body to look for or to reach for something, you may inadvertently pull the wheel in the direction your body is turning. If that happens while your eyes are off the road, you could drive over into the other lane or off the side of the road.

Ask The Driving School Instructor: Driving With One Hand ...

An eye-opening study, published in Eye, The Scientific Journal of the Royal College of Ophthalmologists, examines exactly how much, and in what ways, driving is affected by dilated pupils. It found that for some people, in some situations, it may be safe to drive while dilated.

Driving While Dilated - WebMD

Is it safe to drive with an SRS light on? When the airbag light or SRS warning comes on it should not be overlooked. It doesn't necessarily mean that the car isn't safe to drive but it's like playing with fire if you do.
