Reflections On Nursing Leadership Journal

Over the past two decades, debate over the most suitable leadership role for principals has been dominated by two conceptual models: instructional leadership and transformational leadership. This article reviews the conceptual and empirical development of these two leadership models. The author concludes that the suitability or effectiveness of a particular leadership model is linked to ...

How general practice nurses view their expanding role The purpose of this research was to explore the barriers and enablers that nurses working in general medical practice experience in relation to the Australian Government driven expansion of their roles (nurses working in general medical practice are titled general practice nurses in Australia).

Australian Journal of Advanced Nursing

by Melanie Neumeier, RN. Masters of Nursing Student, Memorial University of Newfoundland and Labrador. Abstract. The high incidence of preventable medical errors in health care is a key factor that has led to pressure on health care organizations to implement electronic medical records (EMRs) as a means to mitigate the issues antecedent to these adverse outcomes.
