List of scientific journals. The list given here is far from exhaustive, only containing some of the most influential, currently publishing journals in each field. As a rule of thumb, each field should be represented by more or less than ten positions, chosen by their impact factors and other ratings.

### List of scientific journals - Wikipedia

Journal ranking. Journal ranking is widely used in academic circles in the evaluation of an academic journal 's impact and quality. Journal rankings are intended to reflect the place of a journal within its field, the relative difficulty of being published in that journal, and the prestige associated with it.

### Journal ranking - Wikipedia

The Impact Factor is considered the number one ranking value for scientific journals. Impact Factors are a benchmark of a journal's reputation and reflect how frequently peer-reviewed journals are cited by other researchers in a particular year.

### What is a good journal impact factor? - Texila Journal Blog

Impact Factor. An impact factor is a metric for ranking scientific journals [1]. Impact factors are calculated for every two-year period by dividing the number of times articles were cited by the number of articles that are citable [2]. The following is a list of the top five highest-impact journals in 2014 [3]. Journal Total cites Impact...
