Data Logging: MakaiLay logs all data critical to the cable installation and can log any other available digital data as well. MakaiLay creates a very complete and detailed record of the operation.

Monitoring: In real-time, MakaiLay accurately computes the shape of the cable between the ship and the seabed and computes a reliable record of touchdown conditions.

SpaceShipOne is an experimental air-launched rocket-powered aircraft with sub-orbital spaceflight capability at speeds of up to 900 m/s (3,000 ft/s), using a hybrid rocket motor. The design features a unique "feathering" atmospheric reentry system where the rear half of the wing and the twin tail booms folds 70 degrees upward along a hinge running the length of the wing; increasing drag while ...
