§130.1. Implementation of Texas Essential Knowledge and Skills for Agriculture, Food, and Natural Resources, Adopted 2015. (a) The provisions of this subchapter shall be implemented by school districts beginning with the 2017-2018 school year.

Proposed - Texas Education Agency

The “natural flavorings” found in many unsalted butters produced in this country refer mainly to a compound called diacetyl, a natural byproduct derived from culturing skim milk with bacteria, namely *Streptococcus lactis*. Diacetyl is used to give rich, buttery flavor to processed foods like Twinkies and movie popcorn, but in butter its purpose is merely to act as a preservative.
