Technical Documentation Style Guide - justwriteclearly.com

This guide is a living document; it changes over time, and when it changes, we generally don't change previously published documentation to match. We strive for consistency to the extent feasible, but at any given time there are certain to be parts of our documentation that don't match this style guide.

About this guide | Google Developer Documentation Style ...

Software documentation can be structured in 1 of 2 formats, the reference manual and the user guide. Sometimes, a combination of formats is the best approach. A reference manual format is devoted to explaining the individual features of a software application (button, tab, field, and dialog box) and how they work.
