Volvo KAD32 Impeller Change

Hello all, I have a vessel with twin Volvo Penta KAD32 engines. Model year 2003. Often after a trip - the engine on the Port side will not stop when I rotate the ignition key to stop the engine. When I look at the engine, I see that the fuse is out. If I push back the fuse, I can now turn off the engine. Could it be that the relay or the speed relay into the blackbox on the engine is defect?
