Ethnicity. Genetics Out of Africa Dr. Orville Boyd Jenkins. Question: When scientists say that we are all "out of Africa" what do they mean? Do they mean that all human beings came from people whom we could identify today as Black Africans?

Genetics Out of Africa - Orville Boyd Jenkins

Recently published research in the field of molecular genetics—the study of DNA sequences—indicates that Jewish populations of the various Diaspora communities have retained their genetic identity throughout the exile.

Jewish DNA | Genetics

This has been a topic of debate for more than 2000 years, but with the latest finding in genetics, it appears those who say the “chicken” are on the winning side.

Genesis and Genetics | We look at Genetics in Genesis

A scriptural framework leads to specific expectations about the genetic differences among humans and other species, expectations that can be scientifically tested against modern genetic data. Genetics confirms the recent, supernatural creation of Adam and Eve and refutes the evolutionary narrative on human origins.

Genetics Confirms the Recent, Supernatural Creation of ...

Scientists believe that many factors influence when Alzheimer's disease begins and how it progresses. The more they study this devastating disease, the more they realize that genes play an important role. Research conducted and funded by the National Institute on Aging (NIA) at the National Institutes of Health (NIH) and others is advancing our understanding of Alzheimer's disease genetics.

Alzheimer's Disease Genetics Fact Sheet

Heredity is the passing on of traits from parents to their offspring, either through asexual reproduction or sexual reproduction, the offspring cells or organisms acquire the genetic information of their parents. Through heredity, variations between individuals can accumulate and cause species to evolve by natural selection. The study of heredity in biology is genetics

Heredity - Wikipedia

One Retinoblastoma World is a global network with the bold idea that all children with retinoblastoma can have equal opportunity to optimal care.

One Retinoblastoma World Map

Genetics and Social Behavior. Human evolution has not only been recent and extensive, it has also been regional. The period of 30,000 to 5,000 years ago, from which signals of recent natural ...

Former New York Times Science Editor: Race Is Real | Time

Author's Note: This essay was written for a collection of historiographic studies in the winter of 1993/4, while the author was an Andrew Mellon Fellow at the Rockefeller University. It was to appear in a collection of papers on the history of genetics. As this volume has been dropped the author wishes to make this essay available through the MendelWeb.
